

Providing waste samples to GSB

In order to allow efficient handling, please send waste samples to our incineration plant in Baar-Ebenhausen (please use address shown on right), marking it for attention of your contact person in sales office.

kontakt@gsb.bayern
www.gsb.bayern

Please ensure that sample meets the following requirements:

- For analysis of liquid waste, approx. 1 litre is required, in case of solid waste approx. 1 kg.
The nominal volume of **sample packaging** and actual volume of content should correspond; any derogation shall be agreed with your contact person at GSB.
- The waste shall be packed in good quality **sample packaging** which is chemical resistant against its content and not fragile.
Any loss of contents needs to be avoided.
Fragile **sample packaging**, such as glass bottles, can only be accepted if agreed in advance.
- No residue shall adhere to the outside of the packaging.
- Samples in receptacles for food or for hospital waste may not be evaluated for reasons of occupational safety and will be disposed of immediately.
- Please label sample with company name, date and denomination of waste.
- The packaging shall be strong enough to withstand the shocks normally encountered during carriage.
- In case of dangerous goods, please adhere to ADR regulation and label sample accordingly (e.g. LQ).
- Please label sample according to GHS/CLP directive.
- If required during further procedure, please provide a protocol of sampling according to LAGA PN 98.
